Sustainable Agriculture & BCS's Contribution

BCS's Key Strategic Activities

Supporting SA

**Innovative
Agricultural
Technologies
Solutions**

- **Crop Protection Products**
- **Seeds: Bred Traditionally and Through Plant Biotechnologies**
- **Additional Plant Biotechnologies, e.g. output-traits**

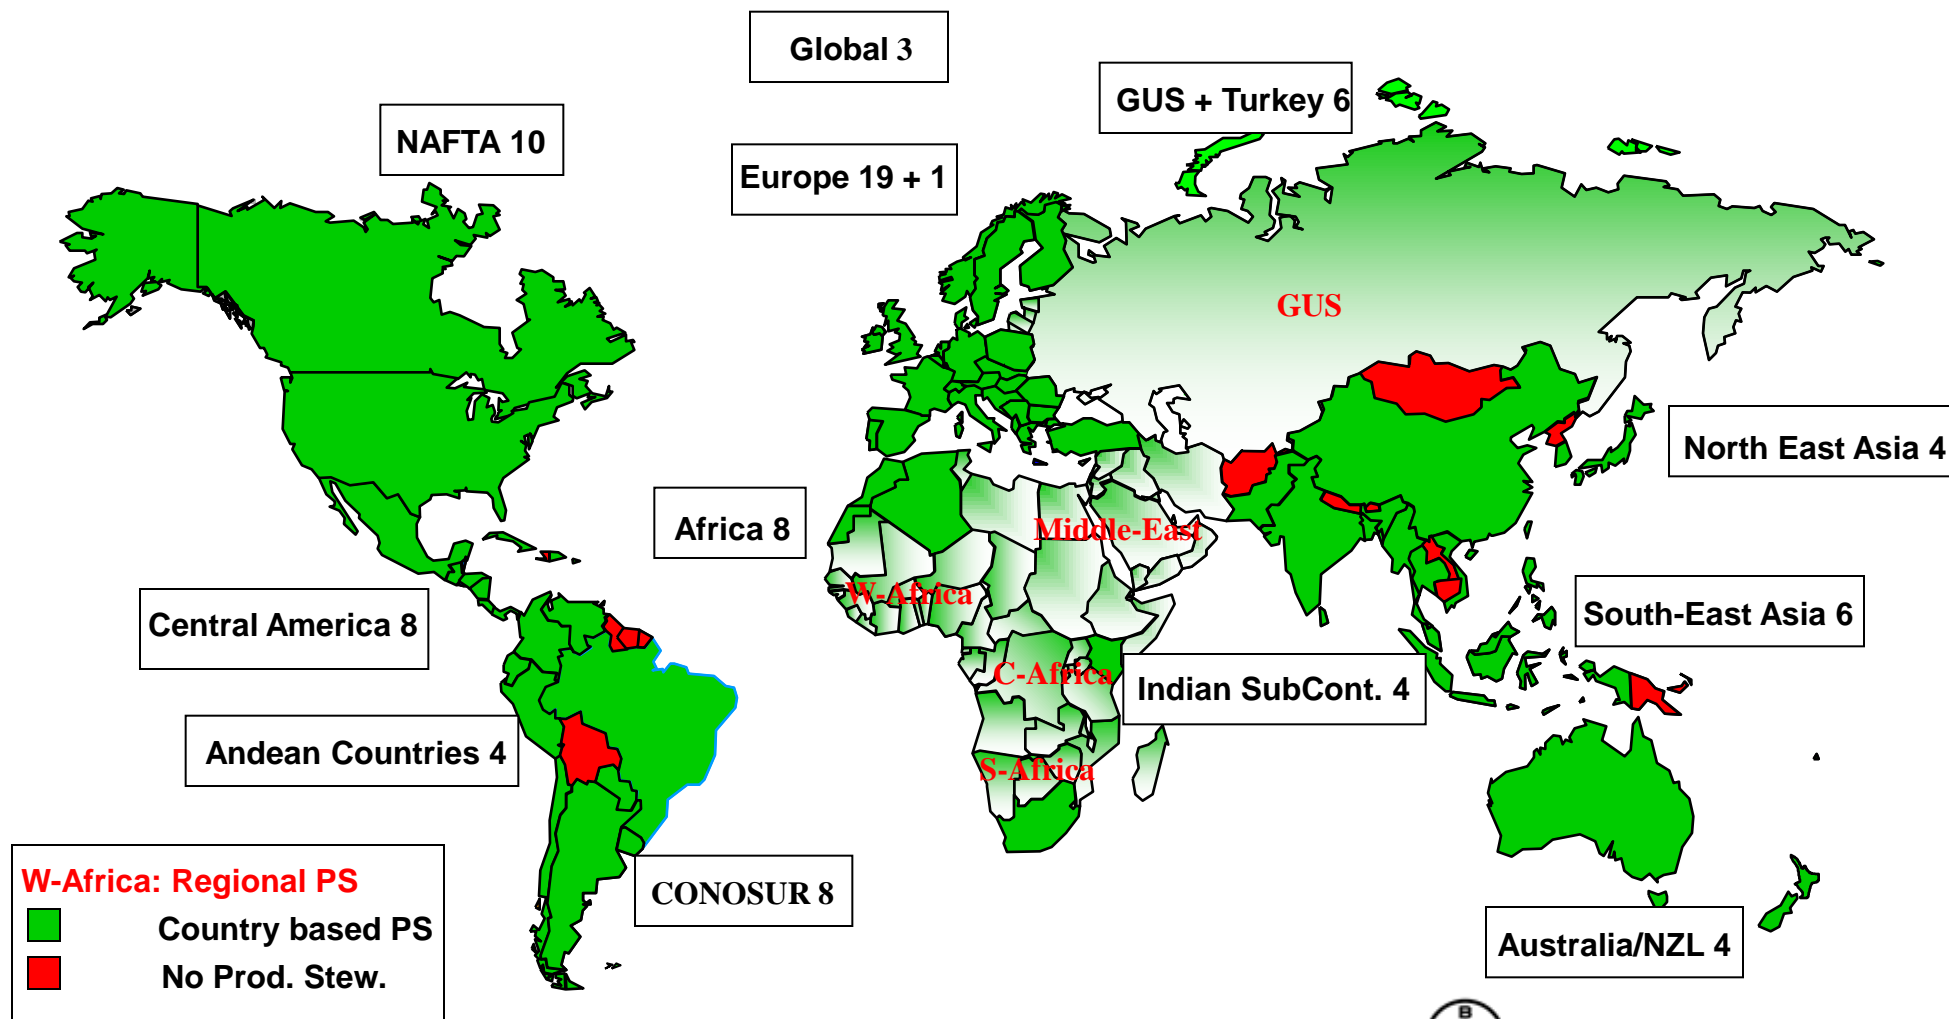

**Product
Stewardship**

- **Product R&D: Human and Environmental Risk Assessment**
- **Manufacturing: Efficient, Resource Conserving**
- **Responsible Product Distribution, Use & Disposal** ★

**Good
Agricultural
Practices
and Services**

- **Provision of appropriate information & guidance**
- **Education & Training**
- **Multi-stakeholder partnerships & initiatives** ★

Motivation and Aim

BCS has a strong interest in reducing pollution of surface water, mainly point contaminations by supporting

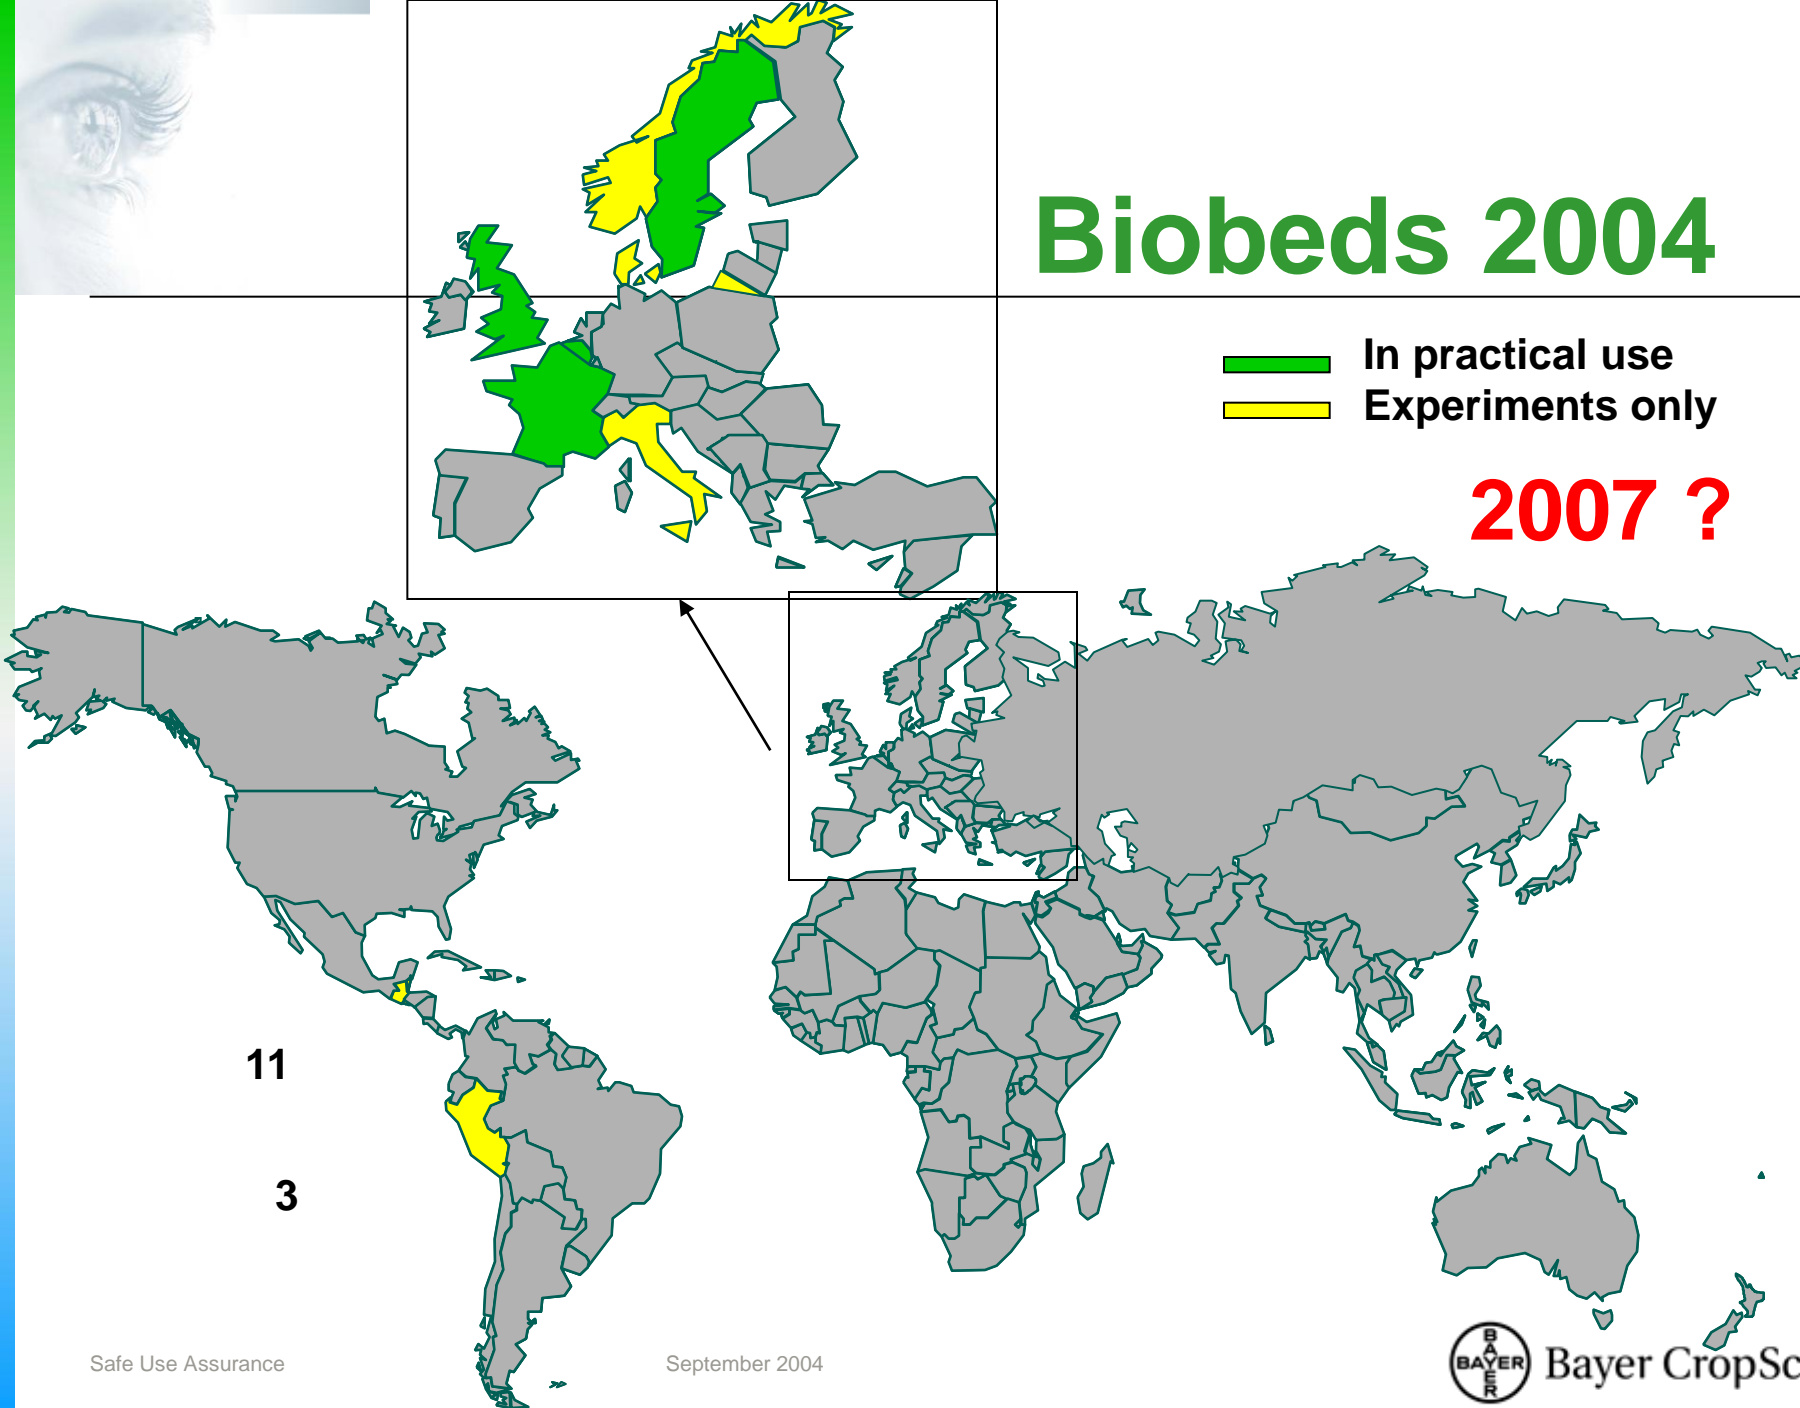

-  Exchange of experience from people working with biobeds
-  Summarising the knowledge about biobeds
-  Information of authorities about the gained knowledge
-  Spreading of knowledge to countries that have not yet done any research in this field

The Mayfair Hotel, Malmö

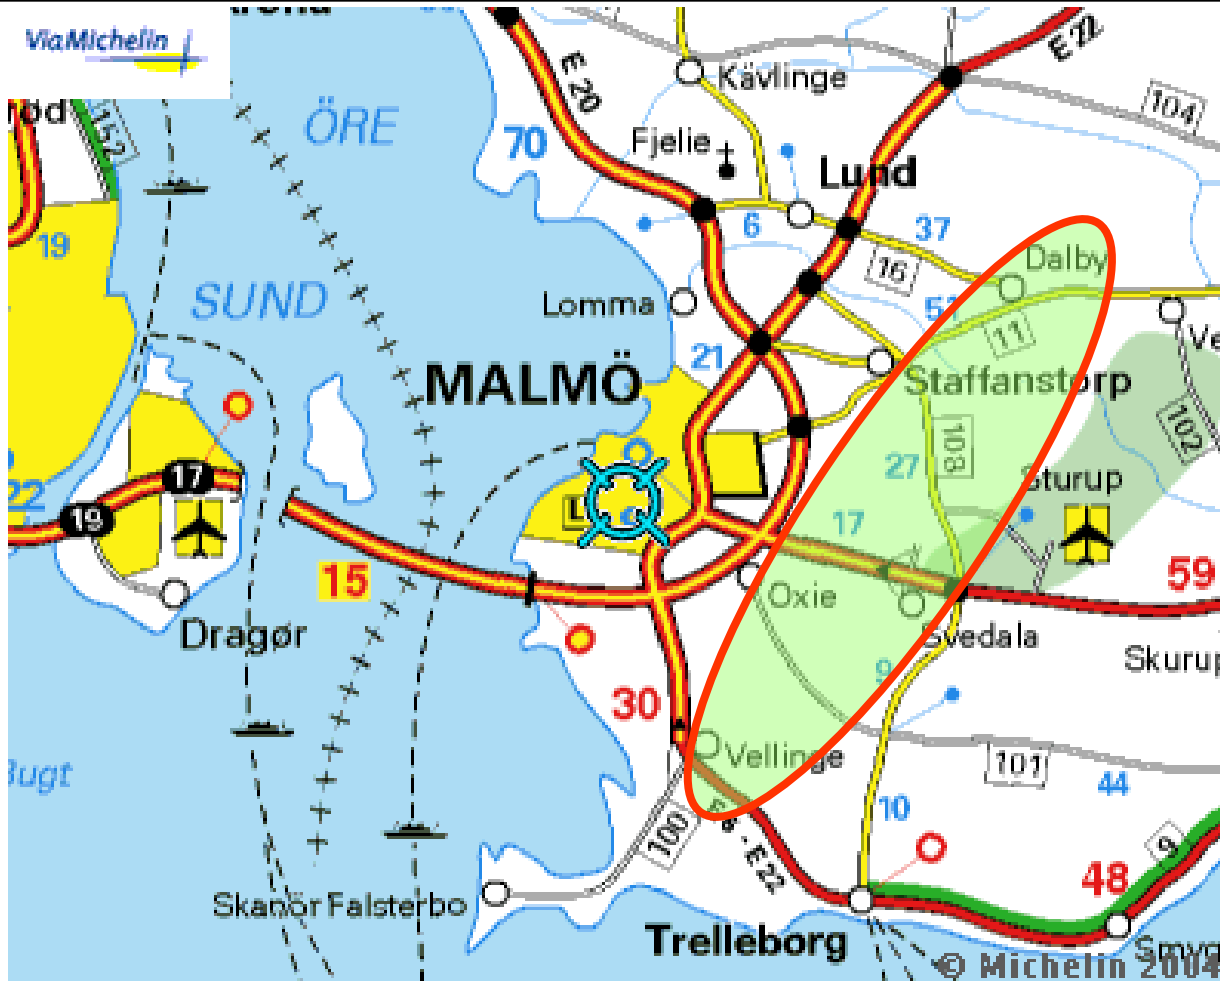

The building's history dates back to the 13th century.

Danish and Swedish kings have visited the building since it used to be the residence of the governor of Malmö
